

EUROPEAN BOARD OF SURGERY

Union Européenne des Médecins Spécialistes
European Union of Medical Specialists

PRESIDENT PROF. DR. WOLFGANG FEIL, MAS, F.A.C.S., F.E.B.S.

EUROPEAN BOARD FELLOWSHIP "OG SURGERY"

The **European Board of Surgery** and the **Division of OG Surgery** of the UEMS (www.uemssurg.org) conduct in cooperation with the **European Society for Diseases of the Esophagus Division** a

UEMS Board Examination in OG (Oesophagus Stomach) Surgery

in **Athens (19th November 2019)** prior to the 2019 Congress of the European Society for Diseases of the Esophagus 20th – 23th November (<http://www.esdeesophagus.org/>).
Candidates successfully passing the examination will be qualified as

"Fellow of the European Board of Surgery/OG - F.E.B.S./OG"

The Fellowship of the UEMS is a significant high-level indication of professional competence and excellence. It basically reflects the ongoing important European standardization, harmonization and quality assurance process in medicine. The Fellowship also considers the concept of providing qualifications for "transferable competencies" and enhance professional development and migration. The 2019 ESDE meeting in Athen is the fifth occasion to apply for the UEMS OG Fellowship.

The qualification process for the Fellowship consists in a 2-step process: **Eligibility** and **Examination**. All details about the **Eligibility** process, application forms and precise information about the **Examination** are published on the homepage of the Section of Surgery of the UEMS: www.uemssurg.org.

In addition **Honorary Fellowship Diploma** may be awarded to academic and/or senior surgeons in advanced position on invitation, on personal recommendation and on request at the discretion of the Board.

The **EBS OG Surgery** Examination in Athen will be conducted in English. It consists of a MCQ (multiple choice question) test with 100 items and an OSCE (objective structured clinical examination) circuit with 6 stations, each 20 minutes (one or two day session dependent on applicants). The thematical weighting of the MCQ questions is according to the "Blueprint OG Surgery".

The OSCE circuit consists in clinical pathways and typical cases that may include photographs and radiologic pictures. The focus is on structured short questions and answers on diagnosis, treatment and decision paths following everyday clinical surgical practice.

MCQ and OSCE are weighted 50% each for the overall result, passing threshold is 75% from total.

The European Fellowship does not implicate automatic allowance to work at own responsibility and does not automatically enhance participation in national social security systems of the E.U. Recognition of Fellowship by the national authorities is encouraged by the UEMS.

Individual recognition of Fellowship as equivalent to national diploma is supported by the EBSQ committee and the number of countries officially adopting the Board qualification with subsequent legal validation and automatic mutual recognition in the EU is continuously rising.

Take the opportunity to achieve a high-level European qualification!

Looking forward to seeing you in Utrecht,

Wolfgang Feil, MD, MAS, FACS, FEBS

Professor of Surgery
President of the European Board of Surgery
Hon. President of the UEMS Division of General Surgery
Chairman of the Examination Committee GenSurg

Lars Bo Svendsen, MD, D.M.Sci, FEBS (hon)
